Response to Office Action of August 11, 2004

Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:** 

1. (Currently Amended) A sexual aid device, comprising:

a curved portion for insertion into a vagina or an anus, said curved portion having a proximal

and a distal end;

a substantially straight portion, said straight portion extending from said proximal end of said

curved portion thereby forming an approximate J shape; and

mechanical means for causing movement or a combination of movements of said curved

portion.

2. (Original) The device of claim 1 wherein said movement is arcuate.

3. (Original) The device of claim 1 wherein said movement is circular.

4. (Original) The device of claim 1 wherein said movement is vibratory.

5. (Original) The device of claim 1 wherein said movement is an extending movement.

Appl. No. 10/772,558

Amdt. dated December 9, 2004

Response to Office Action of August 11, 2004

6. (Currently Amended) The device of claim 1 wherein said movement is a "come hither" backand-forth movement.

1338.1001

- 7. (Original) The device of claim 1 wherein said distal end of said curved portion stimulates a female's Grafenberg spot or G spot when the device is inserted into the vagina with said straight portion pointing away from said curved portion towards the female's torso.
- 8. (Original) The device of claim 1 wherein said straight portion extends coextensively from said curved portion.
- 9. (Original) The device of claim 1 and further comprising a clitoral stimulation portion.
- 10. (Currently Amended) The device of claim 10 9 wherein said clitoral stimulation portion is a cup.
- 11. (Original) The device of claim 10 wherein said clitoral stimulation portion is textured.
- 12. (Original) The device of claim 10 wherein said clitoral stimulation portion vibrates.

Appl. No. 10/772,558

Amdt. dated December 9, 2004

Response to Office Action of August 11, 2004

13 (New) The device of claim 9 wherein said substantially straight portion includes a cover

1338.1001

having a plurality of buttons; said plurality of buttons coupled to said mechanical means and for

imparting vibratory motion to said curved portion, back-and-forth motion to said curved portion and

vibratory motion to said clitoral stimulation portion.

14. (New) The device of claim 1 wherein said combination of movements may include arcuate,

circular, vibratory, extending movement and back-and-forth movement.
